TIRE PRESSURE-MONITORING SYSTEM ALERT

Before Dunlop tires are delivered to the dealer, a test must be performed to determine if the tire pressure warning system is operating. Do not return the tire to the dealer if the test fails or if any of the following conditions are observed:

- The system will not display a tire pressure warning light.
- The system will not display a tire pressure warning light in response to a low tire pressure condition.
- The system will not display a tire pressure warning light in response to a low tire pressure condition and then display a tire pressure warning light in response to a high tire pressure condition.

If any of these conditions are observed, return the tire to the dealer for repair.

THE CONVENIENCE (TEMPORARY) SPARE

The Convenience (Temporary) Spare tire and wheel assembly is designed to be used during the warranty period if the original equipment tire becomes damaged.

- If the tire has been damaged, it cannot be repaired and must be replaced.
- The Convenience (Temporary) Spare tire and wheel assembly is not designed to be used as a full-time tire and should not be installed on the vehicle after the warranty period.
- The Convenience (Temporary) Spare tire and wheel assembly is not designed to be used on the rear axle of any vehicle equipped with a limited-slip differential.

DUNLOP LIMITED WARRANTY

HIGHWAY AUTO AND TRUCK REPLACEMENT TIRE

WHO IS ELIGIBLE?
If you are the owner or authorized agent of the owner of any Dunlop Light Truck, you may be eligible for the benefits of this Limited Warranty if you meet all the following criteria:

You must present your original tire purchase invoice which shows the tire purchase date and price. (For Canada, no receipt is required.) Any applicable taxes and government-mandated charges must be included.

WHAT IS A TAMPERED OR MISHANDLED TIRE?
A tire is tampered or mishandled if the tire was not handled or installed properly. Tampering or mishandling can be caused by:

In addition, you must pay an amount equal to the full current F.E.T. (U.S. only) or any other applicable taxes and government-mandated charges.

If your disabled tire had an original 8/32” of usable tread and is worn to 4/32” usable tread remaining, you have used 50% and therefore only have 50% of the original warranty period remaining. The Tread Life Limited Warranty is prorated over 6 years for tires with original tread depth greater than 4/32”. For example, if your Dunlop Tread Life Warranty is 60,000 miles, if the tire is worn to 4/32” after 30,000 miles, you have 30,000 miles shown as 60% of 6 years. This will apply to your remaining warranty in effect at the time of tire replacement.

LIMITATIONS
Tires submitted for ride disturbance complaints that are worn over 2/32” (5.08 mm) after the first 10,000 miles and over 4/32” (6.35 mm) thereafter, may be replaced or adjusted. However, the Tread Life Limited Warranty does not apply to:

The term "inference" refers to any condition, characteristic or property of a tire that is not specified in the warranty. The term "infers" is used to express the relationship of one point to another. The term "Ti" refers to the tire code. The term "new" refers to a tire that has not been mounted on a vehicle. The term "warranty" refers to the Dunlop Tread Life Warranty. The term "warranty period" refers to the warranty period applicable to the tire, beginning at the date of manufacture or first sale to the consumer. The term "warranty replacement" refers to the tire replacement provided by Dunlop under its Tread Life Warranty. The term "warranty replacement tire" refers to a tire that is new or a tire with a warranty period remaining. The term "warranty replacement period" refers to the time during which a warranty replacement tire is covered under the warranty. The term "warranty replacement tire cost" refers to the cost of a warranty replacement tire. The term "warranty replacement tire retail price" refers to the retail price charged by a Dunlop Retailer for a warranty replacement tire. The term "warranty replacement tire retail price" is expressed in U.S. dollars, except as noted. The term "warranty replacement tire retail price" does not include any applicable taxes or government-mandated charges.

In Canada, the tire will be $65.00 plus F.E.T. (U.S. only) plus any other applicable taxes and government-mandated charges. In the United States, the tire will be $65.00 plus F.E.T. (U.S. only) plus any other applicable taxes and government-mandated charges.
