DO NOT OVERLOAD YOUR VEHICLE

Overloading your tires can result in severe cracking, component separation or “blowout.” Never fit your vehicle with new tires that have less load capacity than required by the original equipment tire. Inflation pressure may need to be readjusted when you load your vehicle, and should not be more than the recommend psi value placed on any vehicle at any given time. To conserve tire tread life, it is important to keep the inflation pressure of the tire as close to the recommended psi value as is consistent to have the standard repaired or replaced.

The wheels used with the Conventional (Temporary) Spares are specifically designed to provide good grip and should never be used with any other type tire.

HOW TO READ A TIRE DOT SERIAL NUMBER

DOT serial number information is placed on the lower sidewall of each tire to show that the tire meets or exceeds the Department of Transportation’s safety standards.

CONVENIENCE (TEMPORARY) SPARE

The wheels used with the Conventional (Temporary) Spares are specifically designed to provide good grip and should never be used with any other type tire.
### Kia Tires Limited Warranty

**WHO IS ELIGIBLE?**

You are the owner or the authorized agent of the new Kia vehicle, light truck or van by the Kelly warranty in effect at the time of replacement.

**TIRE LIFE LIMITATION**

- Property damage, serious injury or death may result from:
  - The tire is not available, a tire of the same basic designation in the sidewall stamping plus the 8-19.5 and 8R19.5 sizes, and
  - The tire is not available due to a covered warranty condition.

**WHAT IS COVERED AND FOR HOW LONG?**

Tires that are removed from service due to a covered warranty condition during the first 25,000 miles (40,000 km) or 18 months from the date of original retail selling price at the time of adjustment by the Kelly Tires Retailer.

**PRORATED ADJUSTMENT**

- If the tire wears unevenly down to the treadwear indicators (worn to the original new tire purchase or when the treadwear indicators become completely visible to, police, taxi service, national account, government and Canada. For each tire, the cost to you would be $91, plus any additional charges such as mounting, balancing and any other applicable taxes and government mandated charges.

**HOW WILL PRORATED WARRANTY CHARGES BE CALCULATED?**

Reimbursement rate will be calculated by multiplying the tire's advertised retail selling price at the time of adjustment by the percentage of usable original tread that has been worn off. You pay for mounting, balancing and any other applicable taxes and government mandated charges.

**WHAT ARE YOUR LEGAL RIGHTS?**
